

## Mini LED for Tail Light

### Mini LED Through Tail Light Module

#### Features :

- Integrated LED and driver circuit
- High brightness and high contrast display module
- Automotive external communication and warning
- Free form and can be customized

i-mini

Module Size (mm <sup>2</sup> )	840 x 160
Color	RGB
Brightness (nits)	Typ. 2000 Max. 5000 is possible
PPI	3
Gray Level (bits)	16
Refresh Rate (Hz)	3,840

### LED Tail Light Module

#### Features :

- Multi-functions & low power consumption (12V DC Input)
- CE/RE Class 5 level certification
- Reliability qualified by customers

Function	Stop/Brake & Position & Indicator Lights
Circuit Topology	Buck-Boost & Linear
Protection	UVLO,OVP,OC,OTP
Lifetime (hrs)	> 30,000 ( 3 years )
