## INDEPENDENT AUDITORS' REVIEW REPORT

PWCR25000182

To the Board of Directors and Shareholders of ENNOSTAR Inc.

### ***Introduction***

We have reviewed the accompanying consolidated balance sheets of ENNOSTAR Inc. and subsidiaries (the “Group” ) as at September 30, 2025 and 2024, and the related consolidated statements of comprehensive income for the three months and nine months then ended, as well as the consolidated statements of changes in equity and of cash flows for the nine months then ended, and notes to the consolidated financial statements, including a summary of material accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

### ***Scope of review***

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement on Review Engagements 2410, “Review of Financial Information Performed by the Independent Auditor of the Entity” in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### ***Basis for qualified conclusion***

As explained in Note 4(3), the financial statements of certain insignificant consolidated subsidiaries and information disclosed in Note 13 were not reviewed by independent auditors. Total assets of these subsidiaries amounted to NT\$5,184,063 thousand and NT\$6,378,460 thousand, constituting 9.92% and 10.87% of the consolidated total assets as at September 30, 2025 and 2024, respectively, total liabilities amounted to NT\$575,949 thousand and NT\$1,461,293 thousand, constituting 6.33% and 11.76% of the consolidated total liabilities as at September 30, 2025 and 2024 respectively, and the total comprehensive income (loss) amounted to NT\$268,111 thousand, (NT\$194,095) thousand, (NT\$556,996) thousand and (NT\$758,929) thousand, constituting (67.57%), (82.35%), 16.84% and 74.10% of the consolidated total comprehensive income for the three months and nine months then ended, respectively. The balance of these investments accounted for using equity method amounting to NT\$1,992,860 thousand and NT\$2,310,436 thousand, respectively, and the comprehensive loss recognized from associates and joint ventures accounted for under the equity method amounting to NT\$7,799 thousand, NT\$64,416 thousand, NT\$209,392 thousand and NT\$208,696 thousand, respectively, were included.

### ***Qualified conclusion***

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries been reviewed by independent auditors as described in the *Basis for qualified conclusion* section above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at September 30, 2025 and 2024, and of its consolidated financial performance for the three months and nine months then ended and its consolidated cash flows for the nine months then ended in accordance with the “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” that came into effect as endorsed by the Financial Supervisory Commission.

**ENNOSTAR INC. AND SUBSIDIARIES**  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**NINE MONTHS ENDED SEPTEMBER 30, 2025 AND 2024**  
(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

**1. HISTORY AND ORGANIZATION**

ENNOSTAR Inc. (the “Company”) was incorporated on January 6, 2021. The Company’s shares have been traded on the Taiwan Stock Exchange in the Republic of China since the date of its incorporation. The share exchange transaction, wherein the Company was established by Epistar Corporation (“Epistar”) and acquired all issued and outstanding ordinary shares of Epistar and Lextar Electronics Corp. (“Lextar”) by way of share exchange, has been approved both at Epistar’s board meeting on June 18, 2020 and special shareholders’ meeting on August 7, 2020. The share exchange was conducted at an exchange ratio of 1 ordinary share of Epistar and Lextar for 0.5 and 0.275 ordinary share of the Company, respectively. As a result, Epistar and Lextar became wholly-owned subsidiaries of the Company on January 6, 2021, and both of Epistar’s and Lextar’s ordinary shares have been delisted while the ordinary shares of the Company were listed starting from the same date under the symbol “3714”.

The Company applied for a name change in 2025, which was approved by the Ministry of Economic Affairs on July 14, 2025.

The Company and its subsidiaries (collectively referred herein as the “Group”) are engaged in the research and development, design, manufacturing and sales of EPI wafers and chips of AlGaInP, AlGaAs and InGaN and light-emitting diode packages and modules.

**2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION**

These consolidated financial statements were authorized for issuance by the Board of Directors on November 7, 2025.

**3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS**

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS®”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2025 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board (IASB)
---	---

Amendments to IAS 21, ‘Lack of exchangeability’

January 1, 2025

The above standards and interpretations have no significant impact to the Group’s financial condition and financial performance based on the Group’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 9 and IFRS 7, 'Amendments to the classification and measurement of financial instruments'	January 1, 2026
Amendments to IFRS 9 and IFRS 7, 'Contracts referencing nature-dependent electricity'	January 1, 2026
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Initial application of IFRS 17 and IFRS 9 – comparative information'	January 1, 2023
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026
The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.	

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027 (Note)
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027

Note : The FSC has announced in a press release on September 25, 2025 that public companies will apply IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their requirements after the FSC endorses IFRS 18.

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below, others are consistent with Note 4 in the consolidated financial statements for the year ended December 31, 2024. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

- The consolidated financial statements of the Group have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standard 34, 'Interim financial reporting' that came into effect as endorsed by the FSC.
- The consolidated financial statements of the Group should be read together with the 2024 consolidated financial statements of the Group.

**(2) Basis of preparation**

A. Except for the following items, these consolidated financial statements have been prepared under the historical cost convention:

- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
- (b) Financial assets at fair value through other comprehensive income.
- (c) Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.

B. The preparation of financial statements in compliance with International Financial Reporting Standards, International Accounting Standards, IFRIC® Interpretations, and SIC® Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the “IFRSs”) requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

**(3) Basis of consolidation**

A. Basis for preparation of consolidated financial statements:

The principles used in the preparation of the financial statements were consistent with those used in the financial statements for the year ended December 31, 2024.

B. Subsidiaries included in the consolidated financial statements:

**(4) Employee benefits**

Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Also, the related information is disclosed accordingly.

**(5) Income tax**

The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

**5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY**

Pursuant to the bank loan agreements with Mega Bank, the Company and its subsidiaries should meet certain financial covenants which are calculated based on each of their annual audited consolidated financial statements or semi-annual reviewed consolidated financial statements. The Company and its subsidiaries agreed to maintain the current ratio, debt ratio as defined in financial covenants.

**(17) Pensions**

A. (a) The Company and its domestic subsidiaries have defined benefit pension plans in accordance with the Labor Standards Law, covering all regular employees for services provided prior to July 1, 2005, and employees who choose to remain in the defined benefit pension plan subsequent to the enforcement of the Labor Pension Act on July 1, 2005. Under the defined benefit pension plan, employees are entitled to two base points for every year of service for the first 15 years and one base point for each additional year thereafter, up to a maximum of 45 base points. The pension payment to employees is computed based on years of service and average salaries or wages of the last nine months prior to approved retirement. The Company contributes an amount equal to 2% of salaries and wages paid each month to a pension fund. The pension fund is administered by a pension fund monitoring committee and deposited under the Committee's name in the Bank of Taiwan. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

(b) For the aforementioned pension plan, the Group (reversed) recognised pension costs of (\$321), \$74, (\$880) and \$222 for the three months and nine months ended September 30, 2025 and 2024 respectively.

(c) Expected contributions to the defined benefit pension plans of the Company for the year ending September 30, 2026 amount to \$9,155.

B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The Group's mainland China subsidiaries have funded defined contribution plans. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage stipulated by the government. Other than the monthly contributions, the Group does not have further obligations.

(c) The pension costs under the defined contribution pension plans of the Group for the three months and the nine months ended September 30, 2025 and 2024 were \$78,507, \$96,982, \$260,363 and \$298,597, respectively.

**(22) Retained earnings**

- A. In accordance with the Company's Articles of Incorporation, 10% of current year's earnings, after paying all taxes and dues and covering prior years' losses, shall be appropriated as legal reserve until the total equals the issued share capital. Special reserve shall be appropriated or reversed when needed. The remaining earnings along with the prior years' accumulated unappropriated earnings are considered as distributable earnings, and shall be distributed by the Board of Directors. When issuing new shares, the distribution shall be submitted through a resolution at the shareholders' meeting. If the distribution is in cash, it shall be resolved by the Board of Directors. The distribution shall be based on the proportion of shares held by each shareholder.
- B. The Company appropriates earnings based on the factors such as current and future investment environment, capital needs, domestic and overseas competition and capital budget, along with the consideration of shareholders' interest and capital adequacy. The appropriation of cash dividends shall not be lower than 10% of the total dividend appropriated to shareholders.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the special reserve is reversed accordingly and could be included in the distributable earnings.

E. The appropriations of 2023 loss and dividends had been resolved at the shareholders' meeting on May 24, 2024. It was decided to offset the loss with capital surplus and distribute cash dividends of \$677,646 (approximately \$0.9 dollars per share).

F. The appropriation of 2024 loss had been resolved at the shareholders' meeting on May 23, 2025. It was decided to offset the loss with capital surplus. On the same day, the Board of Directors approved the cash dividends distribution from capital surplus of \$664,146 (approximately \$0.9 dollars per share).

## B. Financial risk management policies

- (a) The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The purpose of risk management is to minimise potential adverse effects arising from uncertainty on the Group's financial performance. The Group hedges foreign exchange rate by undertaking forward exchange contracts and exchange rate options; it also undertakes interest rate exchange contracts to convert future variable cash flows into fixed ones. The derivatives undertaken by the Group are used exclusively for hedging purposes and not as trading or speculative instruments.
- (b) Risk management is carried out by treasury and finance departments of the Group under policies approved by the Board of Directors. Treasury and finance departments of the Group identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

## C. Significant financial risks and degrees of financial risks

- (a) Market risk

### Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD, RMB and JPY. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require the Group to manage their foreign exchange risk against their functional currency. The companies are required to hedge their entire foreign exchange risk exposure with the Group treasury.
- iii. The Group's businesses involve some non-functional currency operations (the functional currency of the Company and certain subsidiaries is NTD while that of other subsidiaries are USD and RMB). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise shares and open-end funds issued by the domestic companies. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 10% with all other variables held constant, post-tax profit for the nine months ended September 30, 2025 and 2024 would have increased/decreased by \$6,739 and \$4,656, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$270,190 and \$326,845, respectively, as a result of other comprehensive income classified as equity investment at fair value through other comprehensive income.

Cash flow and interest rate risk

- i. The Group's interest rate risk arises from bank deposits, short-term borrowings and long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash and cash equivalents held at variable rates. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. The Group's borrowings at variable rate were denominated in the USD, RMB and NTD.
- ii. Based on the simulations performed on sensitivity analysis for interest rate risk, the maximum impact on post-tax profit of a 0.1% shift would be increased/decreased of \$13,838 and \$11,897 for the nine months ended September 30, 2025 and 2024, respectively. The simulation is done on a quarterly basis to ensure that the potential maximum loss is within the limit set by the management.

**(b) Credit risk**

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost.

- ii. The Group adopts the assumptions that the default occurs when the contract payments are overdue for 90 days.
- iii. The Group adopts the following assumptions to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
  - If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
  - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
  - (iii) Default or delinquency in interest or principal repayments;
  - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- v. The Group classifies customers' accounts receivable in accordance with credit rating of customer. The Group applies the simplified approach using provision matrix, loss rate methodology to estimate expected credit loss under the provision matrix basis.
- vi. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights. As of September 30, 2025, December 31, 2024 and September 30, 2024, the Group's written-off financial assets that are still under recourse procedures all amounted to \$948,089, \$945,844 and \$949,854, respectively.
- vii. The Group used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable and other receivables. As of September 30, 2025, December 31, 2024 and September 30, 2024, the provision matrix, loss rate methodology is as follows:

(c) Liquidity risk

i. Cash flow forecasting is performed in the operating entities of the Group and aggregated by Group treasury. Group treasury monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets and external regulatory or legal requirements.

ii. Surplus cash are invested in interest bearing current accounts, time deposits and money market deposits, with appropriate maturities or sufficient liquidity to provide sufficient headroom and meet the above-mentioned forecasts. As of September 30, 2025, December 31, 2024 and September 30, 2024, the Group held money market position of \$14,327,601, \$14,677,812 and \$14,379,151, respectively, and those are expected to readily generate cash inflows for managing liquidity risk.

iii. The Group has the following undrawn borrowing facilities:

	September 30, 2025	December 31, 2024	September 30, 2024
<b>Floating rate:</b>			
Expiring within one year	\$ 10,210,196	\$ 11,725,544	\$ 8,525,826
Expiring beyond one year	1,100,000	11,418,680	14,194,912
	<u>\$ 11,310,196</u>	<u>\$ 23,144,224</u>	<u>\$ 22,720,738</u>

iv. The table below shows analysis of the Group's derivative and non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

v. The Group does not expect the timing of the estimated cash outflows through the maturity date analysis will be significantly earlier, or expect the actual cash flow amount will be significantly different.

**(3) Fair value information**

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in convertible bonds and most derivative instruments is included in Level 2.

Level 3: Unobservable inputs for the asset or liability. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

(a) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, refundable deposits, other financial assets, short-term borrowings, short-term notes and bills payable, notes payable, accounts payable, other payables, lease liabilities, long-term accounts payable and guarantee deposits received are approximate to their fair value.

Long-term borrowings: They are measured at present value, which is calculated based on the cash flow expected to be paid and discounted using a market rate prevailing at balance sheet date.

(b) The methods and assumptions the Group used to measure fair value are as follows:

i. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

	Listed stocks	Closed-end fund	Open-end fund
Market quoted price	Closing price	Closing price	Net asset value

ii. Except for financial instruments with active markets, the fair value of other financial instruments is measured by using valuation techniques or by reference to counterparty quotes. The fair value of financial instruments measured by using valuation techniques can be referred to current fair value of instruments with similar terms and characteristics in substance, discounted cash flow method or other valuation methods, including calculated by applying model using market information available at the consolidated balance sheet date.

iii. When assessing non-standard and low-complexity financial instruments, for example, debt instruments without active market and foreign exchange swap contracts, the Group adopts valuation technique that is widely used by market participants. The inputs used in the valuation method to measure these financial instruments are normally observable in the market.

iv. For high-complexity financial instruments, the fair value is measured by using self-developed valuation model based on the valuation method and technique widely used within the same industry. The valuation model is normally applied to derivative financial instruments, debt instruments with embedded derivatives or securitised instruments. Certain inputs used in the valuation model are not observable at market, and the Group must make reasonable estimates based on its assumptions. The effect of unobservable inputs to the valuation of financial instruments is provided in Note 12(3)E.

v. The output of valuation model is an estimated value and the valuation technique may not be able to capture all relevant factors of the Group's financial and non-financial instruments. Therefore, the estimated value derived using valuation model is adjusted accordingly with additional inputs, for example, model risk or liquidity risk and etc. In accordance with the Group's management policies and relevant control procedures relating to the valuation models used for fair value measurement, management believes adjustment to valuation is necessary in order to reasonably represent the fair value of financial and non-financial instruments at the consolidated balance sheet. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

(c) The following chart is the movement of Level 3 for the nine months ended September 30, 2025 and 2024:

	2025	2024
	Financial instruments	Financial instruments
At January 1	\$ 3,492,747	\$ 3,101,227
Losses recognised in other comprehensive income	( 750,392)	( 726,615)
Disposals	( 1,119,352)	( 277,018)
Effect of exchange rate changes	( 108,120)	118,191
At September 30	<u>\$ 1,514,883</u>	<u>\$ 2,215,785</u>

D. Treasury department is in charge of valuation procedures for fair value measurements being categorised within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, performing back-testing, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

E. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at September 30, 2025	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
<b>Non-derivative equity instrument:</b>					
Unlisted stocks	\$ 1,407,970	Market comparable companies	Price to book ratio multiple	1.98~2.24	The higher the multiple, the higher the fair value.

### 14. SEGMENT INFORMATION

#### (1) General information:

The Group is engaged in the research and development, design, manufacturing and sales of EPI wafers and chips of AlGaInP, AlGaAs and InGaN and LED packages and modules. The Chief Operating Decision-Maker assesses performance by each operating result of each sub-group within the consolidated report.

#### (2) Segment information

The accounting policy of operating segments is provided in Note 4. The Chief Operating Decision-Maker assesses the performance of the operating segments based on the financial statements of operating segments. The measurement of profit is based on the income from continuing operations.

#### (3) Information about segment profit or loss, assets and liabilities:
